Customer Reviews

This book is an excellent supplement in the cyberpunk universe. It's descriptions of the Mythos are quite good although they do contradict Lovecraft in places, though none of these contradiction are very major. The setting is a future earth where large corporations have taken over and dark powers man can't hope to understand hide in the shadows. These powers will not be content to hide forever. They feed off the suffering of mankind in this dismal age. The major drawback of this world is that you really need GURPS CyberWorld (Which happens to be one of the best Worldbooks GURPS has ever done) to play it effectively. This is a departure from typical GURPS supplements in that it really isn't a stand alone worldbook. Overall though it is an excellent supplement and a must for anyone who loves Lovecraftian Horror and Cyberpunk.
