Handwriting Analysis: An Adventure In Self-Discovery, Third Edition

Synopsis

This book explains all you need to know about handwriting analysis in order to produce a comprehensive profile of anyone's personality. It is clear, straightforward and easy to follow. It has been used in classrooms with beginners and it serves as a handy reference for the experienced analyst. This third edition delves into the darker side of human personality and shows you how you can identify 65 different signs in handwriting that signal potential danger and dishonesty. These signs are found in the writings of convicted criminals, serial killers, con artists and others who are not to be trusted. As well, illustrations and worksheets have been developed to show you how to measure your Emotional Intelligence, how to determine compatibility in relationships and how parents and teachers can assist in the learning and development of children.

Customer Reviews

"Pick this book up first if you're new to or want to understand Handwriting Analysis. It is indeed an adventure. As one of my favourites, it's more than a basic introduction, offering straightforward information that is well explained and categorized and in enough detail to get you going. The additional chapters are as articulate and even more intriguing. While some books contain only enough information to tease and others give so much detail you're confused, this one is truly helpful. I frequently use it as a reference and am still surprised at how easy it is to use."Carmen Kirschling, President of The Ontario Chapter of The International Graphoanalysis Society

Interesting. Gives you an understanding into this way of looking at yourself and others, and how it

can be used professionally.

it arrived in perfect condition. thanx

"Here is a beautifully and clearly structured book which gives the reader insight into some aspects of handwriting analysis. It is both instructive and entertaining. For each personality trait Peter Dennis gives a positive and a negative meaning, a truly wise approach reminding us that we can use every one of our faculties either for good or for evil." Edith Leslie, Certified Graphologist
