Nooooo don't tell me I'll have to wait for book 3 a long time? Ugh I love this story and I'm gonna go crazy now waiting to see what happens to them and Chloe! Oh I'm gonna pout now tears in my eyes. The Potential books are my favorite story so far I love you miss author lol more of these shifter stories in the future! I love them and you! Please let me know when the third one is out? Hope not

long

I'm literally being killed as I type. This is such an amazing story and I go through these books much too fast. The characters are relatable and amazing and the romance that comes easily to one pair and is difficult for another is so good and addictive and real. I am truly in love with these books and time will not pass fast enough until the novella is released. I have to thank M.L. Ridener for writing such an amazing series

K I honestly liked this book but...I've been waiting months for it and I literally finished it in 2 hours. Slightly disappointed. That being said I did enjoy this one. Aside from the obvious editing errors I like the writing style and the feel of all the characters. I can feel this building into something great but wish it wasn't in 2 hour increments.

Wow just wow! I absolutely love this series so far! They suck you in and you can't put them down till the end, and then your like no!!! It can't be the end already!! I can't wait for the next book I have to know what happens!!!

I love the story line, and am anxious to read the rest of the tale of the Potential's. I was a bit disappointed in this book, and it just seemed really short. There were a few touches of situations that just seemed to be lightly discussed in preparation for the 3rd installment of the series. I definitely will need more to keep me going with the 3rd book. Sorry

This book and series is so good!! I feel that the story ends so abruptly and I need more!! It was a quick read only an hour or so as I feel it is more a novella. Excellent read. There was a couple editing areas but over all excellent novel. Can't wait till the next installment!!

Too short. Not much else to say. I've enjoyed the storyline and characters but this 120 page book basically ended mid sentence. I'd rather wait a year or two and read a complete 300+ page book than read these excerpts. Hopefully the next installment will arrive soon...

I really enjoyed this series it keeps getting better with each book and learn more about the characters and how they are connected. Finding out the reason why the Panthers are after the girls. Looking forward to the next book
