I checked this book out expecting it to be an instructional book of table tennis. Nevertheless, I proceeded to read beyond the first few pages of the book and was enveloped in a different side of table tennis that I have never looked into before. For a person who would like an instructional book, "Sizzling Chops and Devilish Spins," is not going to be the right book for you, but if you would like to read a book filled with witty anecdotes and info about the greatest players of all times (e.g. Dick Miles, Marty Reisman...etc) then this book should not be overlooked.

Delving into this book is like opening the lid of a treasure chest. It’s filled with gems of information about a forgotten era when ping-pong was in its heyday in the borough of Manhattan--at a spot called Lawrence’s Broadway Courts. There played the biggest names in table tennis from around the world and produced such U.S. champions as Marty Reisman and Dick Miles. But the best part of
the book is the delightful writing of Jerome Charyn. His sentences are so interesting and evocative that I couldn't stop reading it once I began. You actually look forward to picking up where you left off. If you've ever picked up a paddle and found yourself hooked, or if you are any kind of paddle or raquet sport enthusiast, this book is a must buy.

We play a unique amateurish Love Ping Pong style--we switch hands, playing both right and left or two paddle--American and Chinese grips. None of the tech stuff.. but we have great concentration, skill and are going on 160 years jointly.
