Popol Vuh: The Mythology Of The Maya

Synopsis

THE "Popol Vuh" is the New World's richest mythological mine. THERE is no document of greater importance to the study of the pre-Columbian mythology of America than the "Popol Vuh." It is the chief source of our knowledge of the mythology of the KichÃ© people of Central America, and it is further of considerable comparative value when studied in conjunction with the mythology of the NahuatlacÃ©, or Mexican peoples. This interesting text, the recovery of which forms one of the most romantic episodes in the history of American bibliography, was written by a Christianized native of Guatemala some time in the seventeenth century, and was copied in the KichÃ© language, in which it was originally written, by a monk of the Order of Predicadores, one Francisco Ximenes.
