## Customer Reviews

I read this a few years back when I thought I had reached the 'zenith' of Spiritual development...I don't know why I felt this way, I guess I just thought I was 'pretty hot stuff' and I didn't think I needed

to know anything else...very naive on my part...but this book blew open the doors to new levels of spiritual awareness...it made me realize at an even deeper level that nothing in our lives is ever by accident...EVERYTHING has a meaning and a purpose and a reason no matter what it looks like. Is this always easy to put into practice? Of course not, but like everything that requires some degree of effort, it is well worth it. I used to be one of those people that dismissed things. I just saw life as random and chaotic. Once in awhile there would be a small glimmer of "something more" but it was quickly swallowed up by the mundane and the ordinary and then one day I received a magnificent "sign" that this was no ordinary world I was a part of. I got a message that this Universe was alive and beautiful and overflowing with Light if I would just open myself up to it AND the universe didn't care if I opened up myself a little or a lot. It wasn't the degree that I opened to it, it was the WILLINGNESS I had to open myself up in the first place that made all the difference. And that's where a lot of get stuck. We don't open ourselves up because we don't want to get hurt or used or frustrated or overly excited about things because what if we get let down or disappointed or we fail? The only way we ever fail is when we see ourselves as merely human. We are Spiritual Beings now and this book reinforces this Truth. That every thread of our lives is interconnected with all that is seen as well as all that is unseen.
