Dancing With Flames: Book 2 (Dragon's Breath Series)

Synopsis

Dragons are on the warpath. Two heroes will risk everything to protect the ones they love. Bailey Monzac slays dragons. Between her imperviousness to their flames and the training she received from the shape-shifter Aidan, Bailey can finally hold her own. When her ally is called away for clan business, the slayer must go solo to investigate a horrifying case of children being abducted by dragons. And the only way she can find them is by killing a whole lot of the fire-breathing beasts. Aidan's father is dying. The pendragon will appoint a successor through a brutal competition, and Aidan may be the only one willing to play by the rules. Escaping with his life could be his toughest challenge yet. If these natural-born enemies can survive their quests, Bailey and Aidan will still have to face an even greater battle to prevent their territory from going up in flames. *Dancing with Flames* is the second book in the *Dragon's Breath* series, a collection of dark fantasy new adult novels. If you like strong, complex female leads, post-apocalyptic shifter and dragon tales, and the slow burn of budding romance, then you'll love the latest installment in Susan Illene's captivating series. Buy *Dancing with Flames* to stoke the fire today! Word count: 104,000 (approximate)

Customer Reviews

I love this series and I didn't want Dancing With Flames to end. As the book begins dragons have been on earth for four months. Between the dragons and the various environmental events (earthquakes, storms, etc.) caused by the dragons' world meshing with ours, there has been an apocalypse of sorts and people are dealing with the fall of the industrialized world. Bailey, our heroine and dragon slayer, is living in an enclave mostly inhabited by her college friends. They forage for food and supplies, protect themselves from gangs, and try and stay out of sight of the dragons. Bailey is honing her slaying skills with the help of Aidan, our hero and a dragon shifter. As she and her friend Conrad are driving she is flagged down by a desperate man. He asks Bailey to save his neighbor's son who has been taken by a dragon. The dragon comes back every night to look for more children. This starts the ball rolling for Bailey's part of the book. As well as training Bailey, Aidan has a lot on his plate. His father, the pendragon, has decided to step down in two weeks and gives each of his children a task they must complete to be considered for the position as his successor. Aidan is given the task of forging a treaty with another clan. With the succession up for grabs, there is a fair amount of jockeying for position among the candidates. Some is political and some is deadly. One of the things I love about Susan Illene's books is that neither the hero nor the heroine is a sidekick. They have their own stuff to do and exist separately from each other. That makes the scenes when they are together so much better. There are a lot of series where one of the two MCs is more of a helper than a person in their own right. This is never a problem with Ms. Illene.
