# Combinatorial Extremization (Mathematical Olympiad)

## Synopsis

In China, lots of excellent students who are good at maths takes an active part in various maths contests and the best six senior high school students will be selected to form the IMO National Team to compete in the International Mathematical Olympiad. In the past ten years China's IMO Team has achieved outstanding results they have won the first place almost every year. The author is one of the coaches of China's IMO National Team, whose students have won many gold medals many times in IMO. This book is part of the Mathematical Olympiad Series which discusses several aspects related to maths contests, such as algebra, number theory, combinatorics, graph theory and geometry. The book elaborates on methods of discrete extremization, such as inequality control, repeated extremum, partial adjustment, exploiting symmetry, polishing transform, space estimates, etc.

## Book Information

Series: Mathematical Olympiad (Book 13)

Paperback: 200 pages

Publisher: World Scientific Publishing Co (April 26, 2016)

Language: English

ISBN-10: 9814723169

ISBN-13: 978-9814723169

Product Dimensions: 6 x 0.6 x 8.9 inches

Shipping Weight: 15.5 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 starsÂ Â See all reviewsÂ (1 customer review)

Best Sellers Rank: #861,062 in Books (See Top 100 in Books) #139 inÂ Books > Science & Math > Mathematics > Pure Mathematics > Combinatorics #287 inÂ Books > Humor & Entertainment > Puzzles & Games > Math Games #8172 inÂ Books > Textbooks > Science & Mathematics > Mathematics

## Customer Reviews

Good!
